

# Thank you

Melodi og lyrik: Jakob Wredstrøm & Emma Sørensen

Vers:

I'm showered by a thousands words  
Of love and empty promises  
I know deep inside of me  
That words cannot fill this void  
Take my pain and mend the broken bones  
Cannot set me free

Pre-Ch:

They say time will heal the wounds and scars  
But then I don't understand why I'm still here  
So God if you're there hear my prayer  
Meet me

Chorus:

Thank you for the cross  
I'd almost given up  
This broken heart was falling apart  
I gave myself away  
In a hope of a better place  
I lost my heart but you called me by name

Vers 2:

Soaring with the winds above  
Had it all, then gave it up  
For what? Not what's left in me  
I fell so far, so wide, so deep,  
Lost my way  
God you were dead to me  
A faint memory
